

## DMX Controllers

# EUROLIGHT LC2412

Professional 24-Channel  
DMX Lighting Console

- Professional lighting console with 24 preset channels, assignable to 512 DMX channels
- Up to 3 DMX channels can be controlled per preset channel
- 120 scenes storable in 10 banks
- Integrated chaser with up to 650 steps featuring sync-to-bass beat
- Frequency-dependent sound-to-light function
- Crossfade time freely selectable for smooth scene fades
- 2 additional, multi-functional channels for special effects (fog machine, color changer, etc.)
- Ultra-flexible fading functions for manual and automatic operation
- Intuitive solo and channel flash functions
- Extremely effective preview function allows "hidden" memory and chaser checks even during live performances
- Dimmer control via DMX or analog output (0/+10 V)
- MIDI interface for cascading of 2 LC2412s (master/slave setup)
- PCMCIA card slot for storing of up to 25 complete settings (PCMCIA card not included)
- Illuminated display/controls and BNC Lamp socket for easy operation in dark stage environments
- Rack-mounting kit for installation in standard 19" racks included
- 3-Year Warranty Program\*
- Conceived and designed by BEHRINGER Germany

The EUROLIGHT LC2412 is a professional 24-channel DMX lighting console with 24 preset channels assignable to 512 DMX channels. 120 scenes are storable in 10 banks, and there is an integrated chaser with up to 650 steps that features sync-to-bass beat, plus a frequency-dependent sound-to-light function. Crossfade time is freely selectable, allowing for super-smooth scene fades, and there are two additional, multi-functional channels for special effects (e.g. fog machine, color changer etc.).

Designed to provide multi-level control of a wide range of dimmer packs and special effects lighting components, the EUROLIGHT LC2412 provides universal control of all DMX-compatible systems – at a price bound to light up the eyes of even the most budget-conscious stage manager!

## What is DMX?

The LC2412 controller puts out lighting control signals based on the DMX standard, which is a protocol developed to overcome the inconsistencies in non-standardized or proprietary lighting systems. The incredible EUROLIGHT LC2412 works with our own EUROLIGHT LD6230 Dimmer Pack (not included), as well as a wide variety of other industry-approved DMX devices.

## Versatility and Ease-of-Use

You get ultra-flexible fading functions for manual and automatic operation and intuitive solo and channel flash functions. Our extremely effective preview function allows “hidden” memory and chaser checks – even during live performances. The LC2412 also features dimmer control via DMX or analog output (0/+10 V) plus a MIDI interface for cascading of two LC2412s (master/slave setup), and a PCMCIA card slot for storing of up to 25 complete settings (PCMCIA card not included). For added comfort, there are illuminated display/controls and BNC lamp socket for easy operation in dark stage environments.

## Built to Stand the Test of Time

The EUROLIGHT LC2412 features extremely rugged construction, with a steel chassis designed to ensure long life – even under the most demanding conditions. A rack-mounting kit for installation in standard 19" racks is included, and the LC2412 is manufactured under an ISO9000 certified management system – a testament to our pursuit of the ultimate in quality management and performance.

See your local [BEHRINGER](#) dealer about the ultra-affordable EUROLIGHT LC2412, or place your order online today – and take your stage lighting to the next level!

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [MUSIC Group](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty](#) program.
